### ### I. STATEMENT OF FACTS

On April 4, 2026, the domain **GOSITEME.COM** — the primary business domain of GoSiteMe, commanding 23+ domains and the entire ecosystem infrastructure — was discovered to have its **registrar transfer lock disabled** (status: "Not Locked").

The domain is registered through **eNom / Tucows** (IANA Registrar ID: 48). The owner — Danny William Perez — has been the sole registrant since domain creation (October 25, 2024) and has **never requested, authorized, or initiated** the removal of the registrar transfer lock.

### ### II. MATERIAL EVIDENCE

1. All other **26 domains** on the same eNom reseller account remained locked.

2. Only **GOSITEME.COM** — the primary business domain and crown jewel — was unlocked.
3. The lock was restored by the owner on April 4, 2026 at 04:32:17 UTC.
4. Verification confirmed via both eNom API response and independent RDAP query through the Verisign .COM Registry.
5. The restored status reads: **clientTransferProhibited** — confirmed locked.

### ### III. PUBLIC NOTICE

This Official Act serves as a permanent, timestamped public record that:

- The domain GOSITEME.COM was found unlocked **without owner authorization**.
- Only the primary business domain was targeted — all 26 others were untouched.
- If this domain is ever transferred, seized, or redirected without Danny William Perez's explicit written consent, **eNom / Tucows bears full responsibility** for any unauthorized lock removal that facilitated such action.
- The heir to all GoSiteMe domains and intellectual property is **Eden Sarai Gabrielle Vallee Perez** (born August 21, 2012).

### V. DECLARATION

Let this record stand in perpetuity. The unauthorized unlocking of our primary domain by our registrar partner constitutes a breach of trust. We do not accuse — we document. We do not threaten — we protect. This is the sovereign act of a father protecting his daughter's inheritance and his people's digital homeland.
